*Our Story*

## GREAT BRITISH HERITAGE

---

Appropriately founded in the home of bathing, Roper Rhodes was established in 1979 in the beautiful city of Bath, which we still call our home today. It's been over 40 years since then where we have grown and changed along with the city. Furthermore our passion for design, ingenuity and creativity has never been stronger.

Our products are made with consideration as well as stringently tested to ensure uncompromising performance and durability. Such is the confidence in our designs that our ranges are covered by extensive guarantees for your peace of mind. For example you can relax knowing you will receive a 20 year guarantee against defects in manufacture on sanitaryware and 10 years on our furniture.

We have a rich history but are also obsessed with product development; constantly innovating, with each new product launch seen as an opportunity to improve the lives of our customers. We work on the basis that every aspect of the life of our products must be considered, challenged and designed to be better. This approach has resulted in us having a market leading product innovation vitality score.

*Our People*  
GREAT BRITISH DESIGN

---

For over forty years, we at Roper Rhodes have striven for bathroom perfection. Our dedicated team has grown from just one man to a group of people obsessed with all the little details that go into making your dream bathroom.

At every step of the way the customer is at the forefront of our minds. Starting with our product designers, who are always in search of how they can improve the bathroom experience. Push-button showers and contactless flushing are just some of the innovations to come from our team of designers.

Once a product has been made, it finds itself within our impressive 200,000 Sq ft Distribution Centre on the outskirts of Bristol. Here we run a twenty-four-hour operation to guarantee you the best delivery and service we can.

We believe that beautiful bathrooms come from our people, who's inspiration and dedication have made Roper Rhodes what it is today.

## HOW TO GET THE LOOK *with Zoe Jones*

### BE INSPIRED

Our in-house stylist Zoe gives you her tips on how to achieve the fluted style in your bathroom.

Whether through glass, tile, or furniture, textured surfaces lend depth and sophistication to a room. For this look, we paired our white fluted Scheme furniture with a black round countertop basin and a statement Link mirror to create a contrast of colour and shape. The result is quiet luxury at its finest.

@roperrhodes

*'Create points of interest in your bathroom by offsetting fluted surfaces with sleek brassware, hardware, and accessories.'*

\* Our brass Toledo t-bar pulls feature a living finish that can create subtle colour graduations over time, adding to the character of the hardware. Should you wish, a metal polish can be used to restore the original finish. To prevent wood corrosion and discolouration, please ensure that you remove the handles from the vanity before treatment.

SYSTEM

Cool yet elegantly styled, System offers complete flexibility to tailor your space

Define your unique System bathroom

## IN FIVE SIMPLE STEPS

Our System range offers complete flexibility. You can tailor your choice to fit your needs exactly. Choose your unit size, create a style statement by selecting from different basin options, an array of on trend finishes & coordinating handles. Complete your System bathroom with a choice of optional extras. For further inspiration for potential bathroom layouts, designs and configurations see pages 72-81

01

### THE PERFECT UNIT SIZE

Firstly assess your bathroom space and choose the basin unit size to best suit. There's wall mounted options in 500, 600 or 800 widths, with two soft close drawers providing practical, accessible under-basin storage. There is also a compact cloakroom unit option.

### YOUR FINISH OPTIONS

A choice of seven contemporary finishes for System means that you can match or contrast to anything in your bathroom design. The colour palette has been chosen to give a full spectrum of on-trend neutral painted colours in matt and glossy options.

02

03

### CHOOSE YOUR BASIN STYLE

Next you should select your basin preference. This will really change the overall style of your unit. The System range has a wealth of options, there is sure to be something to meet your requirements. Choose from a

sleek full width ceramic basin, a modern, premium hotel inspired Isocast basin with practical workspace on either side, or choose a counter top basin with worktop design. For the full range of Scheme basins options see page 79.

04

### COMPLETE THE LOOK OF YOUR UNIT

Add the perfect finishing touch to your unit with one of our stylish handles, available in a host of shapes, sizes and finishes, including chrome, brass, matt black and colour matched handles.

05

### LIGHTING

Find everything you need in your drawers with the movement-activated, battery-operated light. Easy to remove for charging via USB, see page 80

### MIRRORS & CABINETS

Choose an illuminated mirror, or for some additional storage space add an over basin cabinet, see page 80

### STORAGE

Add a storage column to your bathroom layout to give lots of additional useful storage space, see page 80

### DRAWER BOXES

De-clutter your bathroom by adding additional storage boxes to your unit. Available as a set of two, see page 80

## SYSTEM - BASIN OPTIONS

The polished, minimal form of our basin designs work perfectly when combined with System furniture. Choose from sleek, single-mould isocast or classic ceramic in a range of sizes to suit your System basin unit. Or go bold with one of our stylish countertop basin options, for a truly unique look.

- Smooth, ceramic System basins designed to perfectly match your furniture
- Isocast basins inspired by high end premium hotels provide a slimmer look and useful extra surface space in the bathroom
- Countertop basins make a statement to create a true centrepiece in the bathroom

## SYSTEM - MIRRORS, CABINETS & LIGHTING

Coordinate your bathroom look by opting for one of our specifically designed System mirrors or cabinets. Available in a range of sizes to match flawlessly, with curved corners to create cohesion throughout. All are available with adjustable warm to cool lighting, helping you set the perfect mood whenever.

*Unique Furniture*

## SYSTEM - STORAGE

For some much-needed extra organisation, opt for a set of our solid beech storage boxes; designed to perfectly fit within your furniture and help you keep everything in place. For even more storage we have wall cupboards, ideal for tucking things away and available in finishes to match your furniture unit.

## PURSUIT

A versatile range in contemporary finishes to add a designer edge to your bathroom.

Modern Furniture

# PURSUIT

The contemporary textured finishes lend it a truly sophisticated edge, choose from alpine elm or matt carbon or opt for smooth gloss white and gloss grey. Pursuit is extremely flexible too – choose the 600mm basin unit or use two 600mm units side by side, united by a long solid surface worktop to create a luxurious statement piece.

- Your choice of basin to customise your look
- Spacious internal drawers in a beech finish
- Additional beech storage drawer dividers are available to keep you organised
- Sleek, integrated chrome handle

## ROPER RHODES BASINS & WCs

### WC & BASIN SOLUTIONS FOR ALL SPACES

Our basins and WC collections offer a breadth of solutions for all bathroom sizes, no matter how big or small. Covering both modern, contemporary and timeless classics, there is a solution for all styles. Delve in and explore for yourself...

### MATT OR GLOSS FINISH OPTIONS

Our sanitaryware collections are specially glazed to create either a high gloss or a smooth matt finish. Equally hygienic and easy to clean, our new matt white WCs and seats are ideal for contemporary bathrooms and pair especially well with our matt brassware options.

### RIMLESS TECHNOLOGY

Our rimless technology makes our WCs hygienic and exceptionally easy to clean. A simple wipe of the rim means there is nowhere germs can hide. Water is projected around the bowl to ensure it is completely clean.

### AIR GAP TECHNOLOGY

All Roper Rhodes closed coupled WC cisterns are now supplied with air gap technology, they also benefit for a WRAS approved inlet and flush valves, and have a built in silencer to reduce water fill noise levels

### CONTACTLESS FLUSHING SOLUTIONS

Our close coupled sensor flush kits offer a hygienic and contactless solution with a simple wave of the hand. The kit can also be retro-fitted to existing WCs. For further details see p148.

### GLASS DUAL FLUSH PLATE

A round dual flush plate offering full or reduced flush options. Compatible with our WC frames or ideal on a tiled wall allowing access to the in wall cistern. Also compatible as an optional upgrade for our concealed furniture cisterns.

### BLACK & BRASS COVER CAPS

For a sleek and stylish finish to your bathroom, upgrade to black or brass cover caps. Complementary black and brass flush buttons are also available.

### 20 YEAR GUARANTEE

At Roper Rhodes, we pride ourselves in offering high quality products that are built to last, even in the hectic and high traffic space that is the bathroom. That's why all of our basins and WC's benefit from a 20 year guarantee. We provide a 10 year guarantee on seats and 5 years on cistern fittings.

Close Coupled WCs

# FLUSHING SOLUTIONS

## CLOSE COUPLED SENSOR FLUSH KITS

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid. The button kits have been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 2" base.

When upgrading an installed Roper Rhodes cistern the following ranges will require the following items to operate correctly

- Paradigm  
Flush button kit TR9032
- Cover  
Flush button kit TR9031 with valve TR9033

Alternatively, you can purchase your new close coupled WC cistern with the sensor flush kit included.

**ø38mm close coupled sensor flush button kit**

TR9031	£90.00
--------	--------

**ø48mm close coupled sensor flush button kit**

TR9032	£90.00
--------	--------

**Close coupled flush valve 2" base**

TR9033	£28.90

## ROPER RHODES TAPS

Explore our expansive collection of taps and find the perfect finishing touch for your bathroom. We've struck the perfect balance between design and functionality to create a range of taps that not only look great but perform brilliantly too. There is something to suit any bathroom style, from sleekly contemporary to charmingly traditional.

### STYLES

Our selection covers every style and taste, from modern wall mounted mixers, to timeless basin taps. With chrome, black and brushed brass finishes available to create your perfect look.

### AS EASY AS 1,2,3...

Our comprehensive collection of taps provides you with a tap solution, whatever your space. Simply choose a design fit for 1, 2 or 3 basin holes, and let us help you achieve your bathroom aspirations.

### SWIVEL SPOUT AERATOR

Have maximum control of your waterflow with our versatile swivel spout aerators. These ingenious additions allow you to control the direction of water, making sure your tap feels just right.

### GUARANTEES

All Roper Rhodes taps come complete with a 10 year guarantee, including the cartridge, giving you complete confidence in making a Roper Rhodes tap part of your new bathroom experience.

## WATER SAVING FLOW REGULATORS

Our range of optional regulators and aerators are an easy, cost effective way you help save water. These can be used with selected Roper Rhodes products to help reduce your water consumption.

### ECO1 SHOWER FLOW REGULATORS

Suitable for showers & bath shower mixers displaying the ECO1 icon

- Mount between the valve & hose for shower valves with handsets or your bath shower mixer
- Mount between head and arm on your fixed shower heads
- We do not recommend the use of regulators with bath taps or fillers as you will want your bath to fill as quickly as possible

### ECO3 BASIN MIXER FLOW REGULATORS

Suitable for taps displaying ECO3 icon

- Produce aerated water flow
- Simple to install into the aerator housing of basin mixer
- Available in a range of flow ratings

Basin mixer flow regulators include a chrome plated housing as standard. For black and brushed brass taps order an additional housing below.

Black SP21477 £3.50  
Brushed brass SP21478 £3.50

### ECO2 BASIN TAP FLOW REGULATORS

Suitable for pairs of taps displaying the ECO2 icon

- Install into the inlet of the tap
- One required for each tap, therefore please purchase in pairs
- Available in a range of flow ratings

## UNDERSTANDING YOUR SHOWERING OPTIONS

### BAR SHOWERS

Occupying slightly less area than traditional exposed valves, bar valves are an economical choice that are ideal for compact shower spaces. Exceptionally easy to install and maintain, our collection of bar style mixer shower valves are available with a classic single function handset, or as a dual function system with a rainfall effect showerhead. Available in smooth, round or sleek square designs.

### EXPOSED SHOWER VALVES

Bring the charm of traditional brassware into your home. Our timeless collection of surface mounted showers pair the period style you love with our tried and tested engineering, giving you that vintage feel with the comfort that your shower will last for years to come.

### PUSH BUTTON SHOWER VALVES

Making the everyday task luxurious. Swiss engineering combines with intelligent push button technology to offer you effortlessly luxurious showering, all at the touch of a button. Available in an expansive range of styles and configurations.

### CONCEALED SHOWER VALVES

Our concealed thermostatic shower valves offer single, dual or triple function, all in one easy to control system. Single function allows you to choose your perfect temperature level, dual function allows you to seamlessly switch between handset and overhead showers, whilst triple function adds our smart flow bath filler. Both include a specific handle to control the temperature, meaning you can choose your perfect level and leave it for the next time you shower.

### 10 YEAR GUARANTEE

All Roper Rhodes shower systems come complete with a 10 year guarantee, including the thermostatic cartridge.

### PVD

PVD hardwearing & scratch resistant coating. Brushed brass finish

## CREATE YOUR OWN SHOWER

---

If our shower packages don't suit your requirements then you can design your own shower to meet your own specific needs & style. The guide in this section will help you select the right thermostatic valve for the job. Then browse the following few pages to select from the different shower components available & build a shower which is bespoke to you.

Make it unique

## CREATING YOUR OWN SHOWER

### CHOOSE HOW MANY FUNCTIONS YOU REQUIRE

How many functions would you like your shower to control?  
Our selection of valves give the option to choose from single, dual and triple function controls, see pages 188-229

#### SINGLE OUTLET

for single function valves to control a fixed head, handset or bath filler

#### DUAL OUTLETS

delivering water to two separate outlets for dual function valves to control two outlets, see options opposite

#### TRIPLE OUTLETS

delivering water to three separate outlets for triple function valves to control three outlets, see options opposite

### OUTLET OPTIONS FOR SHOWER VALVES

Once you have decided whether you want a single, dual or triple function shower valve (p188-229), next you need to decide what outlets you would like your system to control. Choose from the selection above, all of which are available from Roper Rhodes, see pages 234-243 for all available options.

## BATH FILLERS

With a Smartflow bath filler, water runs into your bath through the filler rather than a traditional bath mixer tap. Mounted on the inside of the bath, the Smartflow acts as a combined filler and overflow and comes with a click waste. It can be used with a manual mixer valve as a simple bath filler, or connect it to a diverter valve to control both bath and shower outlets.

**PVD**  
PVD hardwearing & scratch resistant coating. Brushed brass finish

**GUARANTEE**  
Smartflow bath fillers benefit from a 10 year guarantee

### PRICING

All prices quoted are inclusive of Value Added Tax, which will be charged at the rate applicable on the date your product is dispatched. The prices charged will be those ruling at the date of dispatch and Roper Rhodes cannot be held responsible for any errors or omissions in this brochure.

### PRODUCT SPECIFICATION

Roper Rhodes furniture is designed for use within domestic installations which are adequately ventilated and is not suitable for installation in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

Roper Rhodes Ltd reserves the right to amend the specification of its products at any time if an opportunity to improve the product occurs. All dimensions are approximate and are quoted within reasonable tolerances.

The furniture colours shown in this brochure are representative only and can be affected by a multitude of factors such as lighting and surrounding items.
